

Onboarding

EXPAND THE ONBOARDING PROCESS TO SUPPORT CONTINUOUS GROWTH

Onboarding should encompass more than just a month's worth of learning materials, initial training, and top-down expectations. With Fluency Speak, you can easily provide these development opportunities and decrease the skill gaps between new and seasoned employees without going over budget.

CHALLENGE: ONGOING SUPPORT

Companies often try to get employees up to speed as quickly as possible. While this is essential for certain skills, new hires will also need ongoing support. Too often, companies end the onboarding process after just the first month, leaving employees without the continuous learning opportunities they need to grow and do their job well.

FLUENCY SPEAK SOLUTION

Easily extend and expand the onboarding process with our video practice platform. Provide all employees with scenarios and coaching that targets different stages and phases of the employee journey. Continue to promote new hire and team growth throughout the year without going over budget.

★ FLUENCY SPEAK BENEFITS

- Extend the onboarding journey for continuous growth by deploying learning initiatives in phases.
- Deploy timely assignments to help employees reach short-term and long-term goals.
- Offer ongoing support and training without going over budget.
